

ACCELERATING BrandDemandSM

Becoming indispensable to the new B2B buyer journey

Today's buying scenarios are becoming more complex, making it challenging to be top-of-mind at the right stage of the buyer journey.

The average buying group consists of:

11 individuals,¹

who have an average of

17

interactions with each vendor.¹

Even more challenging is that...

95%

of buyers are out of the market and not ready to buy.²

...they're scrutinizing their options...

81%

said a vendor's content had a significant impact on their buying decision.³

...and it's a long path to a purchase.

11.5

months on average from the time research begins.¹

Meeting B2B buyers on their terms is now more important than ever.

75%

prefer a buying experience that's entirely rep-free.⁴

Today's B2B buyers are already

70%

of the way through the buying process before they contact sales...⁵

...which is

8.1

months into the 11.5 month purchase process.⁵

And they're looking for content that matches their evolving needs.

What does this mean for marketers?

Simply tackling reach in your marketing plan is no longer enough. Instead, a **demand generation** strategy must align with an effective **brand strategy** to facilitate favor at the very outset of a protracted buyer journey.

Balancing **BRAND STRATEGY** with **DEMAND GENERATION** planning

There's no one-size-fits-all approach to B2B marketing. However, by connecting your brand and demand strategies, your Marketing, Sales and Customer Experience process becomes far more inclusive, flexible and efficient.

Think of it this way...

BRAND

Brand strategy is how your company sets itself apart and stays top-of-mind. Successful strategies create and nurture deep connections with prospects to win hearts and minds... and repeat business.

But if demand isn't rooted in brand...

...is low brand recognition draining your conversion rates?

...are misalignments inadvertently damaging your brand?

But if your brand ignores demand...

...is it truly relevant to your buyers' needs?

...does it work to persuade buyers throughout the buy cycle?

The intersection of brand and demand

When brand and demand work in tandem, you can reach—and persuade—potential buyers with the right message on the right channels at the right stage of the buyer journey.

Improve marketing ROI

Delivering leads by acquiring information-phase prospects in bulk is simply more efficient. Seamless brand experiences that nurture early-stage prospects through the entire buy cycle don't just create more leads—they create more qualified leads that are more likely to make it to closed/won status.

Create actionable awareness

Remember those early- and mid-stage buyers? If you can reach them—wherever they are—with timely, relevant content carried by a strong, consistent brand, your conversion rates will explode.

Lower acquisition costs

With a strong brand at the heart of your demand generation strategy, buyers will be more receptive to you at every stage of the buy cycle. That means you'll acquire higher quantities of stronger leads, but for less investment, than simply pursuing the leads that convert the fastest.

Drive conversion rates

No matter how strong your brand is, it won't drive reliable demand if it isn't relevant to buyer needs—especially if you're too internally focused. Delivering emotionally resonant, differentiated and consistent interactions throughout the buy cycle influences conversion rates down the road.

Accelerate your BrandDemand

At BrandAction Agency, Accelerating BrandDemandSM means balancing brand and demand generation strategies to create a more efficient way to grow your business by attracting, engaging, nurturing and rewarding buyers with the right content at the right time.

It starts with aligning your Marketing, Sales and Customer Experience disciplines, gaining executive buy-in to a better process, and becoming indispensable to the buyer journey.
